This Wal-mart Store had to be built under tight time constraints due a permit approval very close to the store opening date. Prime Design Build Corporation was called on use their extensive retail experience to pull out all the stops and bring this project in on schedule.

Not only did the project get built on schedule but innovative approaches to schedule and the strong leadership of the construction team helped to provide a productive working environment which allowed the construction trades to complete their work efficiently and allowed the work to be done to excellent quality standards.

Client/Builder relations were handled professionally which resulted in an excellent rapport with the building users.
