Parry Sound, Ontario

CLIENT:

Wal-Mart Canada Corp.

CONSULTANTS:

Abbarch Architecture(Ontario)Inc.

CONTRACT TYPE:

Firm Price

DURATION OF PROJECT:

8 months

PROJECT SIZE:

37,000 s.f.

The Parry Sound Wal-Mart Addition was awarded to Prime Design Build in March 2008 and construction began in April of the same year.

The project involved a renovation of the front entrance, tenant spaces, a 30,000 SF grocery expansion and Siteworks.

Structural Steel design changes and supply issues delayed the main expansion of the store by 1 month at the start of the project. Through consultation with the owner Prime Design modified the phasing of the project and each section of the expansion was completed on time for the overall store grand re-opening.
