Where the Building Begins.

## Wal-Mart Supercentre Midland

Midland, Ontario

**CLIENT:**

*Wal-Mart Canada Corp.*

**CONSULTANTS:**

*Abbarch Architecture(Ontario)Inc.*

**CONTRACT TYPE:**

*Firm Price*

**DURATION OF PROJECT:**

*12 Months*

**PROJECT SIZE:**

*148,000 sq. ft.*

This Midland Wal-Mart Supercentre involved 5 additions to various locations of the building and a renovation to the existing space as well as various siteworks to facilitate the new additions.

Prime started this project with plans to complete the project early as the conditions when the project started were excellent but it soon turned out that we had a tiger by the tail. During the project Prime had to overcome a number of challenges to schedule which included high winds, a very early winter, a steel subcontractor that was challenged due to the economic slow down and changes to plans that affected critical schedule subcontractors.

In typical Prime fashion, the company dealt with the issues and staffed up the project to finish the work, working with the client hand in hand to turnover the overall building for grand opening day.
