Where the Building Begins.

DSV Solutions Renovation

Brampton, Ontario

CLIENT:
DSV Solutions LLC

This project is a renovation to install a conveyor picking system 200,000 sq. ft.

CONSULTANT:
Paradigm Architecture & Design Inc.

The client needed help putting together the documents for permit approval and oversight of the construction and installation of the Schaeffer picking system imported from Europe.

CONTRACT TYPE:
Management

DURATION OF PROJECT:
4 months

Together the project was completed as expeditiously as possible so DSV can move into the commissioning phase of the project.

PROJECT SIZE:
200,000 sq. ft.
