

PRIME DESIGN BUILD
CORPORATION

Where the Building Begins.

Historic Clock Tower & Storefront Renovation & Restoration

Newmarket, Ontario

CLIENT:
Main Street Clock Inc.

CONSULTANT:
Turner Fleischer Architects Inc.

CONTRACT TYPE:
Construction Management

DURATION OF PROJECT:
12 months

PROJECT SIZE:
25,000 sq. ft.

This project consisted of complete interior and exterior restoration of Newmarket's heritage downtown core. These historical buildings dating back to the 1850's had been severely neglected for nearly a decade prior to commencing this project. The damage that occurred during that time required the buildings to undergo extensive structural rehabilitation in order to bring them into compliance with today's building codes.

These buildings received a thorough review and diligent rework to preserve their heritage appearance while repairing and renovating their interiors. These icons of Newmarket's downtown have been restored to their former glory for future generations to utilize and appreciate.
